Abstract	Sulitest's TASK™ test is an international certification that assesses knowledge of sustainable development, linked to the United Nations' Sustainable Development Goals (SDGs). Designed for students wishing to deepen their understanding of environmental, social and economic issues, this test provides official validation of their skills within a recognized academic framework. As an integral part of the university curriculum, it is an asset for reinforcing academic and professional commitment to sustainability. By choosing this course, students prepare for a standardized assessment and obtain a certification that can be used in their academic and professional careers.				
Programme / session(s)' schedule	Two online testing sessions are offered: the first in October to assess proficiency, and the second in mid-December to obtain the official certificate.				
Developed skills and competences	Description - <i>The list of 17 global goals set by the United Nations General Assembly and designed as a strategy to achieve a better and more sustainable future for all.</i> Alternative Labels - <i>global sustainability objectives, international sustainability goals, universal sustainability objectives worldwide sustainability aims</i> http://data.europa.eu/esco/skill/dda745dd-b8d6-45d8-8c74-e05495ce90f5				
Objectives and learning outcomes	- Demonstrate in-depth knowledge of sustainability issues, including earth systems, human well-being and levers for action. - Apply critical thinking to the contemporary challenges of sustainable development, taking into account planetary limits and social foundations. - Integrate sustainability principles into professional and personal practices, contributing to sustainable solutions.<i>ent ></i>
