

## EUniWell Research Incubator: Call for workshop ideas

The European University for Well-Being (EUniWell) promotes collaboration between its member universities<sup>1</sup> and a broad base of associate partner organisations from across Europe. Since its establishment in 2020, EUniWell partners have offered a range of activities to staff and students, including online open lectures; alumni mentoring; winter and summer schools; virtual internships and a festival of well-being. (Further details of these and many other EUniWell activities are available on the EUniWell [website](#)).

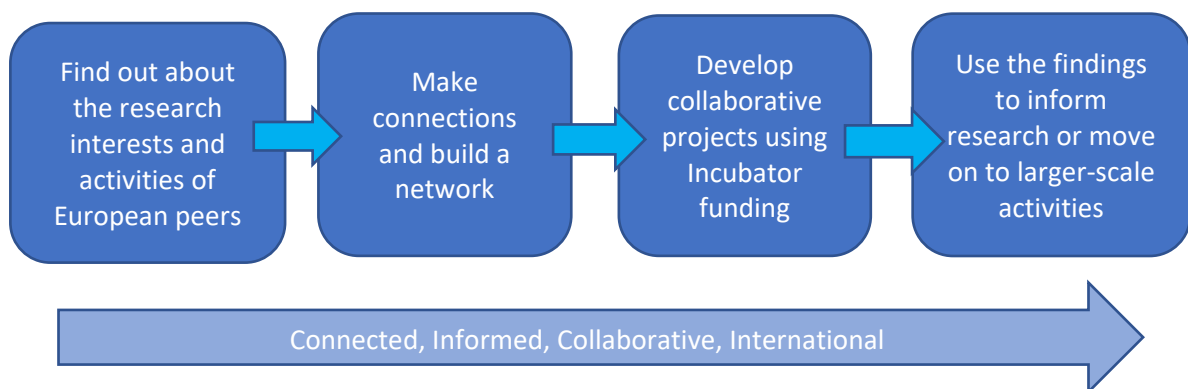

In September 2022, we introduced a new initiative to promote collaboration in well-being research: the EUniWell Well-being Research Incubator. We are now launching our third call for workshops via the Research Incubator and invite researchers from across the EUniWell alliance to apply.

### The Well-being Research Incubator

The Incubator gives researchers access to an established, well-connected European alliance of universities and partners from the public, private and third sectors. Through support to run collaborative workshops, it offers them opportunities to: learn about research activity taking place across Europe; make connections and build a network of peers; identify common interests, synergies and potential for collaboration.

A follow-on funding scheme is available to support collaborative research project ideas resulting from successful workshops. Small-scale projects funded through the Incubator will provide a chance to test out and scope ideas for larger-scale funding bids in the future.

#### EUniWell Well-being Research Incubator: Benefits for researchers

We believe that collaboration supported through the Incubator will help to improve the quality and reach of research across our institutions. Researchers and their work will be better informed by

<sup>1</sup> University of Birmingham, University of Cologne, University of Florence, University of Konstanz, University of Murcia, University of Nantes, Semmelweis University and Taras Shevchenko National University of Kyiv

parallel developments in other countries, and they will have access to a targeted international audience with which to share their work.

## Call for workshops

Researchers from participating EUniWell member universities are invited to submit an idea to the Incubator for an online collaborative workshop. The format of the workshop is to be decided by the applicant. For example, it could be an informal networking session for people working in the same field, or a structured meeting of an established partnership wishing to bid for Incubator funding. Each workshop needs to bring together researchers from at least three partner institutions from the EUniWell alliance, and must relate to one of the four EUniWell research themes, described below.

If required, the Incubator team will provide support to make the workshop happen. The team can provide help to find partners or participants for the workshop, and to decide on the best format and platform to use.

## Eligibility criteria

These workshops are intended to be an opportunity to make connections and explore opportunities for future collaboration. It is up to applicants to decide how best to do this. However there are some eligibility criteria, as outlined below.

- The workshop must bring together researchers and / or research staff (e.g. technicians) from **at least three member universities** from across the EUniWell Alliance.
- The workshop must support **collaboration in research** (rather than teaching or other aspects of higher education provision).

The theme or topic of the workshop must fall under one of the [four EUniWell research themes](#), which are linked to [UN Sustainable Development Goals](#)

1. Well-being and health,
2. Individual and social well-being,
3. Environment, urbanity and well-being,
4. Teacher education.

Workshops relating to **themes 3 and 4** are especially encouraged.

- Workshop organisers must commit to providing a **brief feedback report** (c. 1 page) on their workshop to the EUniWell team, using a standardised template, or to a follow-up call with the Well-being Incubator team to discuss their experience.
- Workshops must be held **online**. There is no funding available for face-to-face meetings.
- Workshops must take place between **July and September 2023**.

## Support available

You can use our online portal to [promote your workshop idea](#) to potential university partners and / or [find out about other ideas for workshops](#) which have been proposed. Instructions on how to use this platform are available [here](#).

If you wish to find out more about EUniWell associate partners and encourage them to get involved in your workshop, please contact the Incubator team: [euniwell-incubator@contacts.bham.ac.uk](mailto:euniwell-incubator@contacts.bham.ac.uk).

Please contact the Well-being Research Incubator team at the University of Birmingham if you have any questions about the call for workshops or require any support: [euniwell-incubator@contacts.bham.ac.uk](mailto:euniwell-incubator@contacts.bham.ac.uk). We have developed a [Frequently Asked Questions \(FAQs\)](#) document and would ask that you consult this before contacting us.

The EUniWell team at your own university will also be ready to help you.

University	Contact
University of Birmingham	s.hawley-woodall@bham.ac.uk
University of Cologne	dgroege2@uni-koeln.de
University of Florence	euniwell@unifi.it
Linnaeus University	intrel@lnu.se
University of Murcia	euniwellari@um.es
University of Nantes	euniwell@univ-nantes.fr
Semmelweis University	dr.adamorosz@gmail.com
Taras Shevchenko National University of Kyiv	maryna.kyryliuk@knu.ua

## Application and selection process

Please complete this brief online [application form](#) by 23:59 (CET) on 26 May 2023. Successful workshop proposals will be informed by 19 June 2023 at the latest.

Workshop proposals will be reviewed by an academic steering group, including a EUniWell student representative. Proposals will be reviewed against the eligibility criteria listed above.

If a high volume of applications are received which require additional support from the EUniWell team (finding partners, technical support, etc), we will give **priority to workshop proposals that have a clear plan for follow-on activities**, and select on the basis of:

- Focus on research (rather than teaching, learning or other aspects of university life),
- Relevance to EUniWell research themes,
- Anticipated outcomes,
- Innovation (i.e. does not duplicate an existing idea).

It is anticipated that a maximum of 10 workshops will be supported in this round.

## Follow-on Funding

If your workshop leads to an idea for a collaborative project, you'll be able to bid for Well-being Research Incubator funding from October 2023. Funding of up to €10,000 or up to €25,000 will be available for projects of up to six months in duration.

At the moment, the University of Murcia, Taras Shevchenko National University of Kyiv and other associate partners are not eligible for Horizon 2020 funding through this pilot phase of the project. They can however (and are actively encouraged to) be partners in the projects.

Follow-on funding is **only available to EUniWell researchers who have held a workshop**. However, if you already have an established connection with your partners and an idea of what you'd like to do, you could use the workshop to plan out your application for the follow-on funding

Full details of eligibility criteria for the follow-on funding will be detailed in the Call for Projects. Funding will be available for projects which:

- Are research-related, such as: small-scale comparative research across partner countries, e.g. an online survey; mapping of facilities / approaches across partners to identify synergies and opportunities; setting up a network of researchers; visits to research facilities; collaborative experiments.
- Are ideally an idea that can 'grow' (the follow-on funding is there to provide an initial investment).

## Call for workshops timetable

Date	Event
Week commencing 03/04/2023	Call for workshops opens
27/04/2023, 14:00-15:00 GMT, 15:00-16:00 CET	Information and networking session. Register your interest <a href="#">here</a>
26/05/2023 23.59 CET	Deadline for workshop ideas to be submitted
Early June 2023	Selection of proposals
19/06/2023	Selected workshop leads informed
July 2023 – Sept 2023	Implementation of selected workshops

## Contact

For any immediate questions, please contact Jo Hawley-Woodall: [euniwell-incubator@contacts.bham.ac.uk](mailto:euniwell-incubator@contacts.bham.ac.uk).
